EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with H. W. Reick on 8/23/07.
3. The application has been amended as follows.

In the Specification

On page 4, in line 11, replace the underline with –PCT/US03/31130--.

In the Claims

Amend claims 8 and 16, lines 8 and 10 respectively, to replace "a detent spring positioned in said socket" with –a detent spring positioned in said detent spring receiving socket--.

These amendments are necessary to correct a minor informality and 35 USC 112 issues in the specification and claims.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a visor assembly having the following features:

- 1) a lens adapted to fit within the mirror frame over the lamp, the lens including an edge which engages said second pivot axle to hold said cover in engagement with said mirror frame as recited in claim 1;
- 2) a cover including integrally formed first and second pivot axles wherein said first pivot axle is inserted into said cylindrical socket and said second pivot axle is snap-fitted within said open socket as recited in claim 8;
- 3) a cover including integrally formed first and second pivot axles wherein the first axle is inserted into said cylindrical socket and said second axle is snap-fitted within said open socket, said cover including a cam aligned with said detent spring for providing snap open and closed control of said cover as recited in claim 16;
- 4) the visor body includes a first ledge including a hook for holding the conductor to the visor body and a second ledge including a notch for receiving and holding a stripped end of the conductor in a fixed position as recited in claim 18; and
- 5) a lens coupled to said frame for holding at least one of said cover pivot axles within said frame, wherein said sockets of said mirror frame include an enclosed cylindrical socket and an open semi cylindrical socket longitudinally spaced from said closed socket, and wherein said cover includes a first pivot axle extending within said closed cylindrical socket and a second pivot axle snap-fitted within said semi cylindrical socket, and said lens holds said second pivot axle in said semi cylindrical socket as recited in claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
